

ACCESS DISPUTES COMMITTEE

To: HAL; MTR; Network Rail; HEOC

The Hearing Chair is grateful for the Parties' submissions yesterday, which are now on the Committee's website. In order to assist with preparation for tomorrow, please be aware that:

1. **HAL** will need to provide further information with regards to its commercial interest in HEOC, and why this was seemingly not considered relevant when applying Condition D4.6.2(f);
2. **HEOC** and **MTR** to be aware that the Panel may ask further questions about the passenger information contained within Section 5.0 of the draft PMO minutes (attached) and as highlighted in the Directions made on 8 October, to assist with considering the application of the Decision Criteria;
3. **Network Rail** to be aware that it may be asked timetabling questions about what is possible at T5.

Kind regards

Tamzin
