Subject: RE: Wembley Central: actions from meeting on 24 February

Dear Sarah

I attach a relatively recent station access request in connection with a sporting event at the Millenium Stadium. This was the same type of charter as was proposed for 28th February. Stacey will probably recognise the format - it is the same as used for, and agreed by, all SFOs. We will look for some more examples - I recall occasions when we and other charter operators have successfully operated 5 charters to the same event, and the franchised TOCs also ran additional services.

Please let me know if you need any additional information. I will be out of the office tomorrow and most of Thursday, without access to my e-mails, but please feel free to call my mobile - I will answer if I am able to, or will return your call when I can.

Kind regards

Stewart Smith

Subject: Wembley Central: actions from meeting on 24 February

Dear Stewart

In our meeting on 24 February you indicated that you would supply us with copies of access request forms put forward by Rail Express Systems in requesting access at other stations, together with details of the operational arrangements requested by those Station Facility Owners.

I have not yet seen them and would be grateful if you would send to me by return.

Kind Regards
