Dear Stewart and Stacey

**Dispute regarding Refusal of Access to Wembley Central Station**

An Access Disputes Panel has been appointed to hear this reference on Thursday 4 March 2010 at the Committee's offices on Floor 8 of 1 Eversholt Street, London NW1 2DN, commencing at 10 00.

The Committee expects RES and LUL (the "Parties") to produce a joint submission which should be received in this office by 15 00 on Thursday 25 February. The preference is for the Parties to provide me with this electronically as a "bundle" of the final documentation to be tabled to the Panel members and placed on the Committee's website. Pages should be numbered sequentially to facilitate ease of reference during the hearing. If the bundle cannot be provided electronically, please make arrangements with me prior to 23 February.

If it will not possible to submit a joint reference, then, in accordance with Access Disputes Resolution Rule A1.30, you should set out the reasons, and notify me by 12 00 on 9 February. In those circumstances I shall specify timescales for provision of separate submissions.

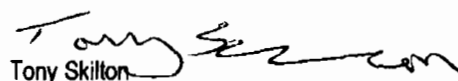

A copy of the template for a joint reference may be found on the Committee's website "accessdisputesrail.org".

In respect of the Access Dispute Resolution Rules, your attention is drawn specifically to two particular provisions:

- (a) Rules A1.33 and 1.34 which set out the level of documentation that is deemed to be the minimum for the parties reasonably to expect that a Panel shall reach a determination; and
- (b) Rule A1.18 *"The Panel shall reach its determination on the basis of the legal entitlements of the dispute parties and upon no other"*.

In the meantime, you are encouraged to continue to engage and endeavour to settle the points at issue before a hearing.

Yours sincerely

  
 Tony Skilton  
 Committee Secretary
