

TTP2079 – Note on Directions issued on 07 December 22

Via a series of emails on 07 December - and following requests from GWR - the Hearing Chair directed that the following documents relating to this TTP reference be redacted in full or in part as described, using his general case management powers in ADR Rule H20:

Appendix A - one bullet point

Appendix B - redacted in full

Appendix F2 - financial information removed

Appendices F3 to F6 - redacted in full

Names and email addresses of GWR and NR employees were also removed from all appendices. The overriding reason for these redactions was on grounds of commercial sensitivity. Other redactions requested by GWR were not granted, on the basis that the information published was not substantially different from information already published in other disputes (e.g. content of discussion about replanning access), or was already available elsewhere (e.g. references to previous TTP hearings).

Note compiled on behalf of Clive Fletcher-Wood, Hearing Chair of TTP2079

Tamzin Cloke

Committee Secretary
