

## **Hearing of TTP2138 - Directions Note**

**21 December 2022**

On 13 December 2022, due to HEOC alleging breach of its TAC with Network Rail, the Hearing Chair directed that HEOC disclose a copy to him via the Secretary. This was done on 14 December 2022.

Although directions - and responses to them - are routinely published in accordance with H56(b), both HEOC and NR made an application for the TAC to remain confidential. The Hearing Chair, having considered the Principles and using his case management powers, agreed to the application and directed that the TAC remain confidential due to its obvious commercial sensitivity and so it is not published here.
